

ECHOMASTER

Factory Connect Camera System: Toyota Tundra

Non-JBL Models with Screen

1

Remove Radio / Multi-media assembly

Unplug factory 20 pin plug and plug into female end of T-Harness. Plug male end of harness into rear of radio.

If radio does not have 20 pin port, this camera is not suitable.

2

Install

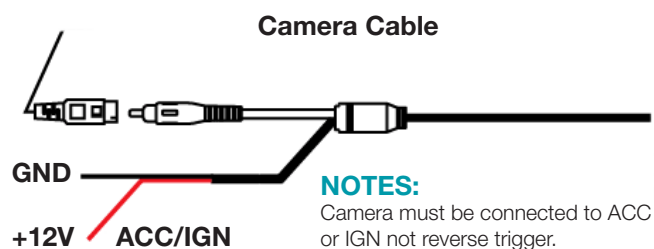

1. Remove existing tailgate handle. Transfer lock mechanism. Mount new tailgate handle with camera.

2. Route cable from camera out bottom of the tailgate and connect to extension cable. Route cable forward into the cab.

3. Connect camera wires according to diagram below.

3

Connect camera Red wire to suitable ACC or IGN +12V. Ground camera Black wire.

We recommend powering the camera at 12 Volt Receptacle

4

Test & Reassemble

15500 Lightwave Drive, Suite 202 Clearwater, Florida 33760

Woolmer Way, Bordon, Hampshire, GU35 9QE, United Kingdom
