*1 Podcast playback may sometimes encounter brief disruptions.

*2 "Resume" function inoperative.

If ACC is off then turned on, the system is unable to return to the point it was previously.

*3 During video mode selection, please select songs only after the blue screen appears to enjoy video playback.

*4 iPod software Ver. 2.2 or higher required. Vers. 1.X.X will not playback video.

*5 Tested with AVN4430 software Ver. 2.1.1

*6 Tested software Ver. 1.1.5

*7 Music files can also be seen in the video list.

*8 iPod software Ver. 2.2.1 or higher required.

6 Note:

- Not compatible with iPod 1st + 2nd generation and iPod shuffle 1st + 2nd generation because they have no dock connector.
- iPhone and iPhone 3G compatibility not guaranteed.

Precautions for iPod connection:

- Only use current iPod software.
- Depending on iPod model or software version used, some operational changes and discrepancies may be seen to content in ECLIPSE head unit manuals.
- Damage including inoperative performance and housing deformation may result when a connected iPod is left exposed to a car interior's high temperatures over extended periods of time.
- ECLIPSE is not responsible for any loss of data incurred during operation.
- Using iPod models released after current head unit models may not provide the same level of performance.

Please consult your dealer.
