

Why SoundGate Dealers have the edge...

The technologies used in today's vehicles are as sophisticated as any laptop computer. At SoundGate we believe these new technologies are full of opportunities for mobile electronic dealers across the nation. We make it a high priority to not only research these new systems, but to understand them and their impact on the aftermarket car audio industry. Armed with this knowledge, we are well equipped to help you integrate new components into these systems with our innovative, high-performance interfaces and unparalleled technical support.

MITSAMP

 **SoundGate®**

Purpose...

The MITSAMP audio interface cable matches the audio signals from a new aftermarket amplifier to the factory connector and radio in Mitsubishi vehicles

equipped with the Infinity Sound System.

Features...

The MITSAMP cable uses factory-match connector housings for an ultra-reliable installation. Four (4) gold-plated RCA output connectors and a remote turn-on lead mate perfectly with the new amplifier*.

The SoundGate MITSAMP works in these vehicles:

MITSUBISHI

- ALL VEHICLES mid 1995 to present with factory Infinity Sound System.

* - Note: The new amplifier you purchase must be a 4-channel amplifier (four RCA jacks) to work correctly with the MITSAMP.

Be Sure To Ask Your Autosound Specialist About These Other Exciting SoundGate Products...

- Auxiliary Input Interfaces and Docking Stations which allow you to input the audio from MP3, DVD/Video, Satellite Radio, and more to OEM and aftermarket car audio systems
- High-performance Radio Replacement Interfaces for seamlessly integrating new receivers or CD players into OEM audio systems
- Competition-Grade Interfaces for adding amplifiers
- Remote Audio Control Interfaces that let you control aftermarket receivers and CD players from your factory rear seat, or steering-wheel-mounted audio controls.
- And many others!

Installation Instructions

Step
1

Remove the Factory Radio

Referencing the factory service manual instructions for your vehicle, remove the factory radio.

Step
2

Install the new Receiver or CD Player using the MITSAMP, power harness (not included), and correct mounting kit (not included).

- A. Plug the MITSAMP into the DIN output connectors of the factory radio.
- B. Connect the “amplifier control lead”, blue in color, of the MITSAMP, to the “remote turn-on lead” of the new amplifier.
- C. Using the RCA cables of your choice, connect the RCA outputs of the MITSAMP to the RCA inputs of your new amplifier.
- D. Following the instructions supplied with your amplifier, finish the amplifier installation.
- E. Reinstall factory radio, reassemble dash panels and installation is complete.

If you experience any problems, call SoundGate Technical Support at
800-256-0808 or e-mail us at sgtech@soundgate.com.
